

Join the Sustainable Business Challenge and receive \$500!

Do you want to save money and operate more efficiently? The California Green Business Network can help your business thrive through our Green Business Certification. For a limited time only, businesses that complete their certification by October 31, 2022 will receive a \$500 incentive.

Don't wait! \$500 incentives are limited and first-come, first-served.

New certified Green Businesses will also receive free technical assistance throughout the process and digital marketing upon completion.

The first step in getting certified is to attend a brief information session with a Sustainability Consultant. We will guide you through the certification process and help you every step of the way. We make it easy!

Sign up for a free info session by July 28th to take advantage of this offer:
