

Simplified Savings Program

Do you manage a small business and are you interested in saving money?

The Simplified Savings Program can help you with information and no-cost solutions that reduce your energy costs while improving the performance of your equipment.

About the Program

The Simplified Savings Program supports PG&E's smallest business customers with activities that may provide immediate savings on your PG&E bill.

One of our expert Program Representatives will work with you to identify which services are the best fit for your business. Program benefits include:

- Educational information about best practices that could save you money and improve the comfort of your space,
- A site-specific assessment and report, and
- Installation of no-cost and discounted projects by a qualified contractor.

These services are designed to quickly help you reduce your PG&E energy bill while improving the performance of your lighting, HVAC and refrigeration equipment.

Customer Eligibility

Your business must:

- Hold an active, commercial PG&E electric and/or natural gas account
- Have a peak demand of 50 kW or less
- Meet specific criteria related to the location and size of your business
- Not be a past or current participant in PG&E's Market Access Program

Our Program Representative can help you determine if you are eligible, or you can visit our website for more information.

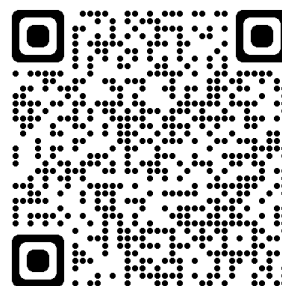

PG&E offers other programs for small businesses. Please visit the [PG&E Business Energy Programs](#) to learn more.

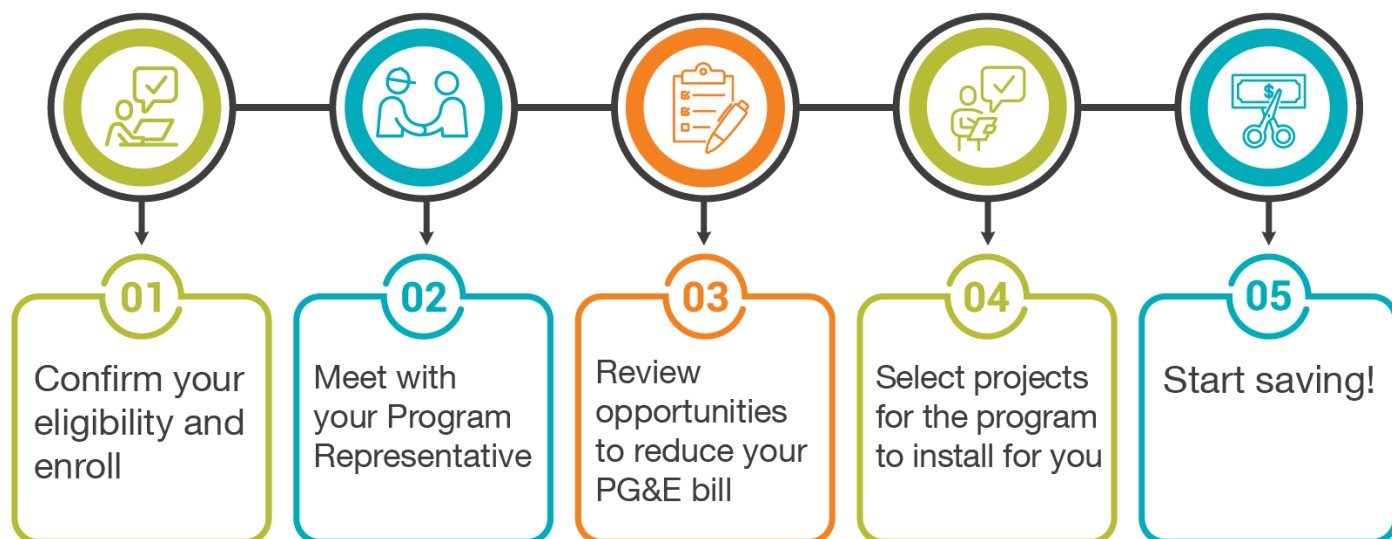

Participant highlights

- **Small business focus** — We provide access to a team that understands the needs of a small business.
- **Affordable projects** — Energy savings projects are installed at no or low-cost to your business.
- **PG&E bill savings** — Services and projects may reduce business' utility costs.
- **Non-energy benefits** — Projects may lead to improved health, comfort, safety and other enhancements within your business.
